SECONDARY MANAGEMENT SOLUTION

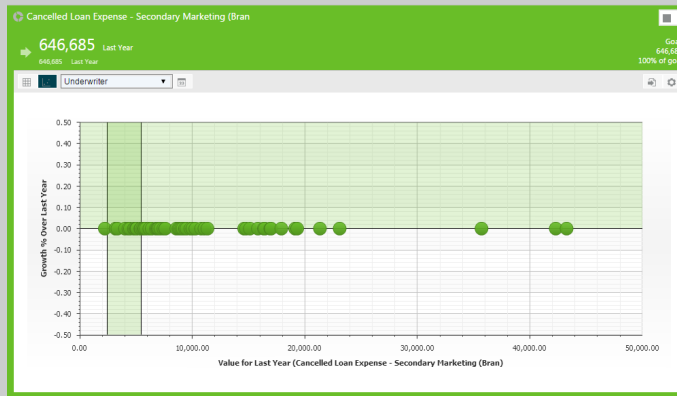

Movation's Secondary Management Solution (SMS) automatically tracks key data and delivers critical information to managers using visualizers that are easy to read and retain. Track all of your lock activity in real time along with rate and circumstance changes. Set tolerances for fees and concessions so that you receive alerts when levels approach defined limits. System notifications can send email alerts when loans are canceled or denied in order to prompt follow on actions such as canceling locks. Movation's SMS provides much more insight into your secondary marketing activities to ensure that no tasks fall through the cracks.

- Track corporate profit and loss as a whole and by loan officer in near real time
- Easily track all of your lock activity and configure automatic notifications for specific conditions
- Compress the elapsed time between loan cancellation or denial and lock cancellation
- Automatically track warehouse lines to monitor available credit, average days on warehouse, and investor suspense levels
- Effortlessly track fees, concessions, and revenue loss events and easily distribute information on relocks, rate changes, change of circumstances, concessions, and total fees to users via email
