COMPLIANCE MANAGEMENT SOLUTION

An ever-expanding regulatory framework means mortgage companies will either have to hire more compliance officers, or find a better way to track and manage these without adding staff. Having a central vehicle to automatically track and manage compliance not only reduces risk, but it also opens up compliance officer man hours to address other, more complex compliance issues that are not readily automated. The Compliance Management Solution provides you with a safety net to protect against costly compliance violations in addition to being one of the only compliance solutions that helps you improve your company's regulatory performance. This robust solution incorporates key business intelligence that proactively focuses on 7 key areas of origination compliance: application, disclosures, re-locking, change of circumstance, APR, ECOA, and closing disclosures.

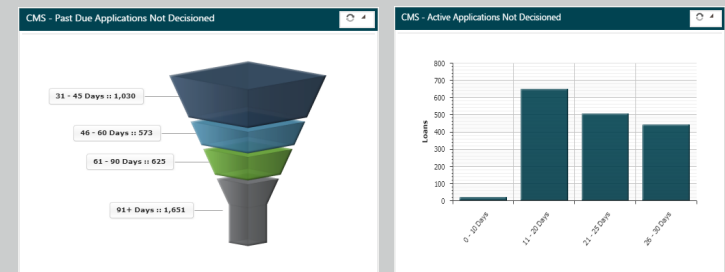

- Proactively track if employees are sending out closing disclosures 3 days in advance
- Tracks all required compliance tasks automatically, ensures completion
- Gives advance warning of potential/pending violations
- Provides drill down capability to identify/locate each individual file with a pending violation
- Pinpoints segmented training/coaching opportunities with departments or individual staff with above average compliance alert incidence
- Identifies compliance violations before they happen
